About St Barnabas Church:

We are a Church of England worshipping community in St Paul's Cray. The church was founded in 1954 with our current church building being in use from 1964. The congregation are friendly and welcoming and would love for you to join us on a Sunday.

Established in 2023, we host the Crays Community Fridge every Saturday morning. It is staffed by volunteers from churches in our local area alongside people from our own church. The Community Fridge provides food and household items to anyone who needs them. We do not require referrals or paperwork.

We will be very pleased to hear from you if you have any questions. We would ideally have a rota of collectors and would like you to commit to at least two Fridays per month.

Thank you for considering us!
